# SCRAP BLOCKS QAL

WEEK 8

This week we are joining all of our blocks to make our quilt tops.

I have not designed these quilts to be QAYG so I am giving instructions to join into a complete quilt top before quilting.

If you want to adapt this to do it QAYG just remember to keep your quilting light as dense quilting will alter the size of your blocks and make them harder to join to their neighbouring blocks....hope that makes sense!

**If you are missing any handouts from any week just email me and I will send them across to you!**

I will be putting out an extra video in a couple of weeks once I have quilted my two Quilt Along Quilts just to show you the finished product.

If you want me to include a photo of your blocks, quilt top or finished quilt in this video send it to [hello@scrapfabriclove.com](mailto:hello@scrapfabriclove.com) (make sure your name appears in the actual photo if you want to be credited.
